

Technical drawing of a mechanical part, likely a valve or actuator component, showing multiple views and dimensions.

Views:

- Top View (Left):** Shows a circular flange with a central hole and a smaller hole offset to the right. A dimension line indicates a distance of 620 between the center of the main hole and the center of the offset hole.
- Side View (Right):** Shows the profile of the component. It features a large circular flange on the left and a smaller circular flange on the right. The main body is cylindrical with a central section that is wider. Dimensions include a total length of 620, a distance of 14 from the left flange to the start of the main body, and a distance of 34 from the end of the main body to the right flange. A dimension of 5 is also shown near the right flange.
- End View (Bottom Left):** A cross-sectional view showing the internal structure of the component. It includes a central hole and a smaller hole offset to the right. A dimension line indicates a distance of 620 between the center of the main hole and the center of the offset hole.
- Detail View (Top Left):** A close-up view of a small circular feature, possibly a bolt or a pin, with a dimension of 5.

Dimensions:

- 620 (Total length)
- 14 (Distance from left flange to start of main body)
- 34 (Distance from end of main body to right flange)
- 5 (Distance from end of main body to right flange)
- 5 (Small circular feature dimension)

Labels:

- A**: Section line for the side view.
- B**: Section line for the end view.
- 1, 2, 3, 4, 5**: Callout numbers for specific features.
